COMPANY INDRODUCTION

- Global Woodwork LLC is established in 2010, Located in Sohar industrial area.
- Presently Global Wood Works is the biggest wooden manufacturing Factory in Oman as well as one of the Biggest factory in GCC having 30,000 Sqmt factory built up area.
- Head office located in Muscat for administration and project execution
- Global Woodwork LLC is an ISO certified company as well as ROP certified for fire door manufacture.
- Our factory include 127 top range advance technology machineries and more than 400 no's experience manpower.
- Being one of the leading wood work factory in Oman, We are focusing for manufacturing all the custom ID wooden works such as hospitality, (5 star & 4 star Hotels) , Residential, Commercial& hospital projects.
- Our factory is producing extensive range of products such as wooden doors, wardrobes, kitchen cabinets, wall panels and all types of built up furniture, Hotel Guest room and public area ID works etc..

VISION & MISSION

OUR VISION:

- **Mastering the Art of Joinery:**

To be the most trusted name in joinery and wooden works in GCC, recognized for delivering exceptional craftsmanship and innovative solutions that enhance the beauty and functionality of every space.

- **Where Precision Meets Passion:**

To set the industry standard in joinery and wooden works by combining meticulous attention to detail with a passion for creating sustainable and lasting wood products.

- **Crafting Connections with Wood:**

to lead the industry by crafting intricate joinery and wooden works that seamlessly blend tradition with modern design, leaving a lasting impact on every project we touch.

OUR MISSION:

- **Precision Craftsmanship, Tailored Solutions:**

To provide our clients with high-quality joinery and wooden works that are custom-made to fit their unique needs, using the finest materials and techniques to ensure durability and elegance.

- **Innovating Tradition with Modern Design:**

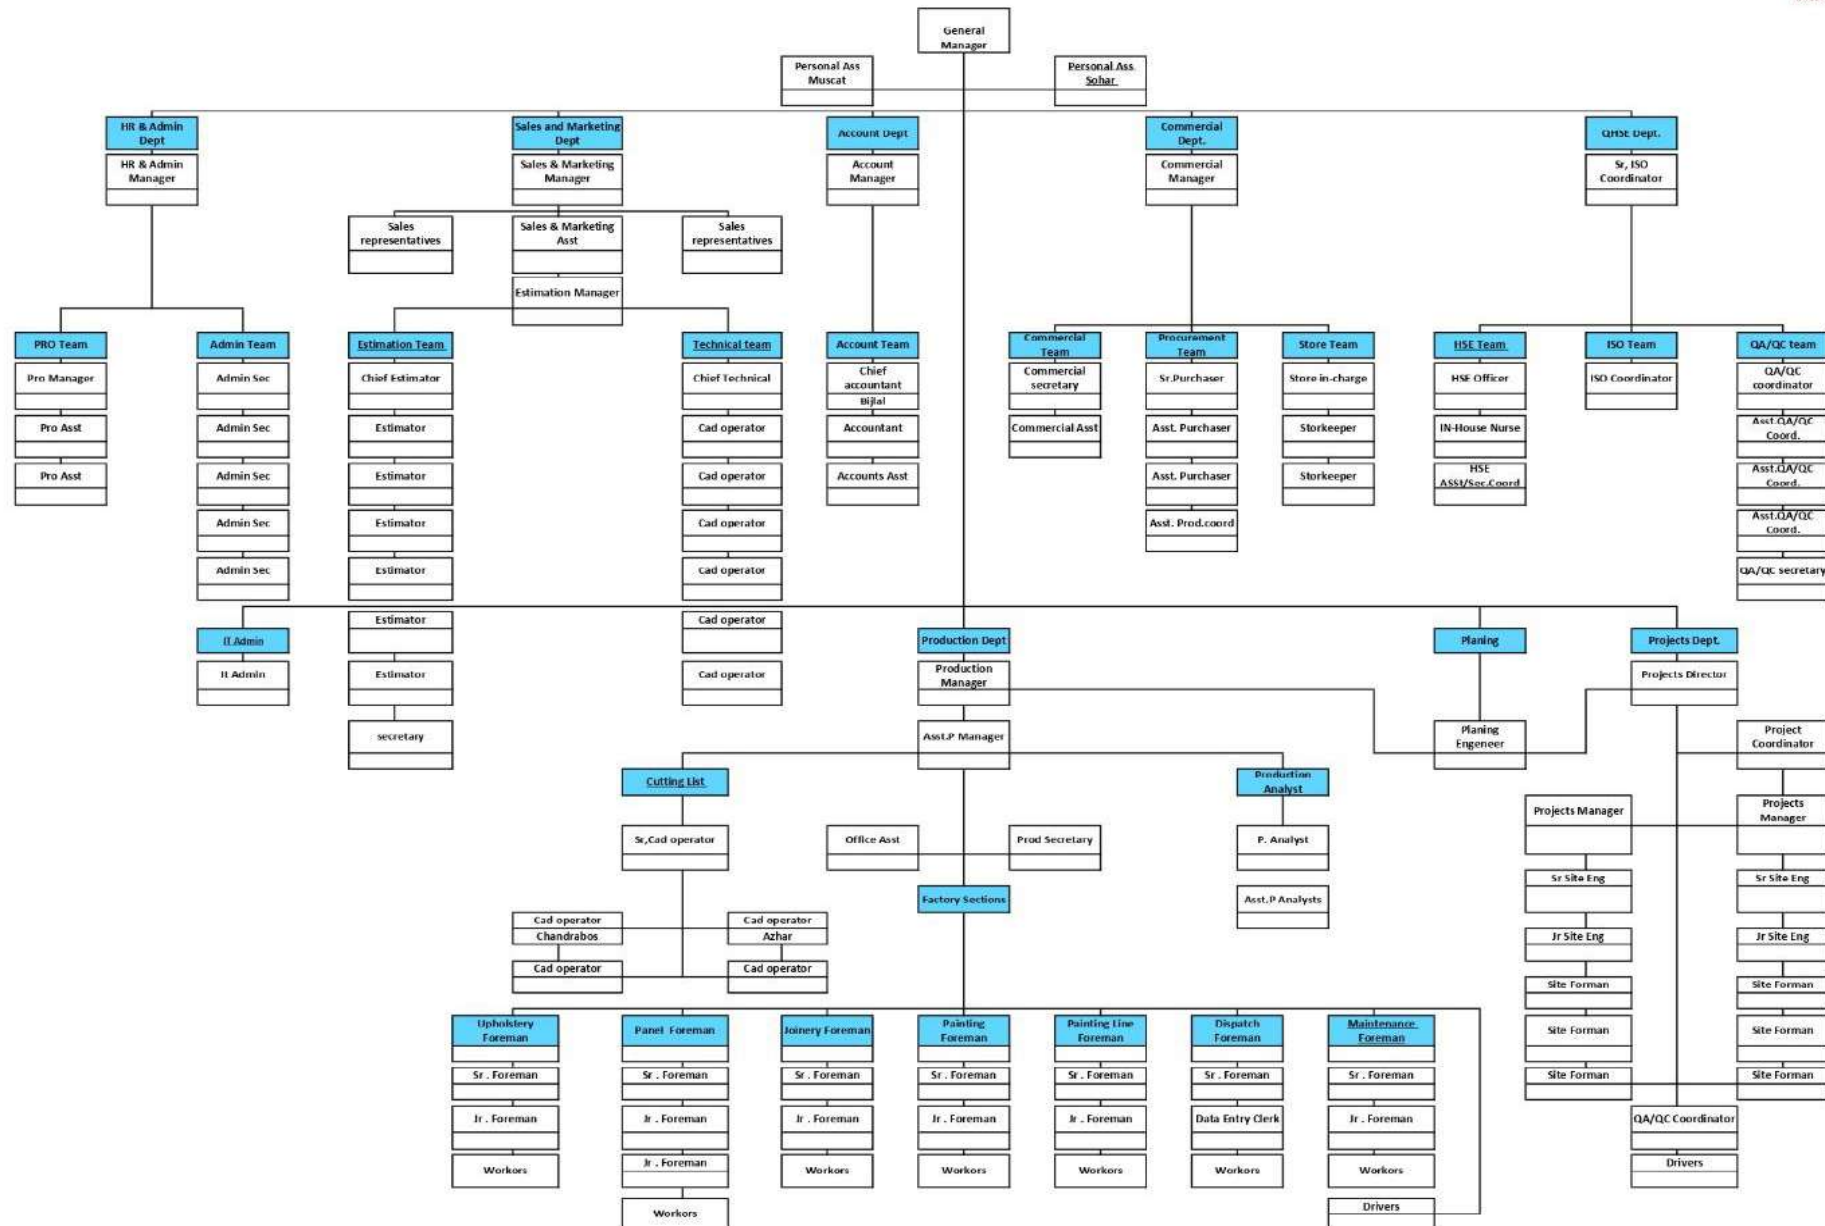

To blend the timeless skills of joinery with contemporary design principles, offering wood solutions that are both aesthetically pleasing and built to last, while maintaining a commitment to sustainability.

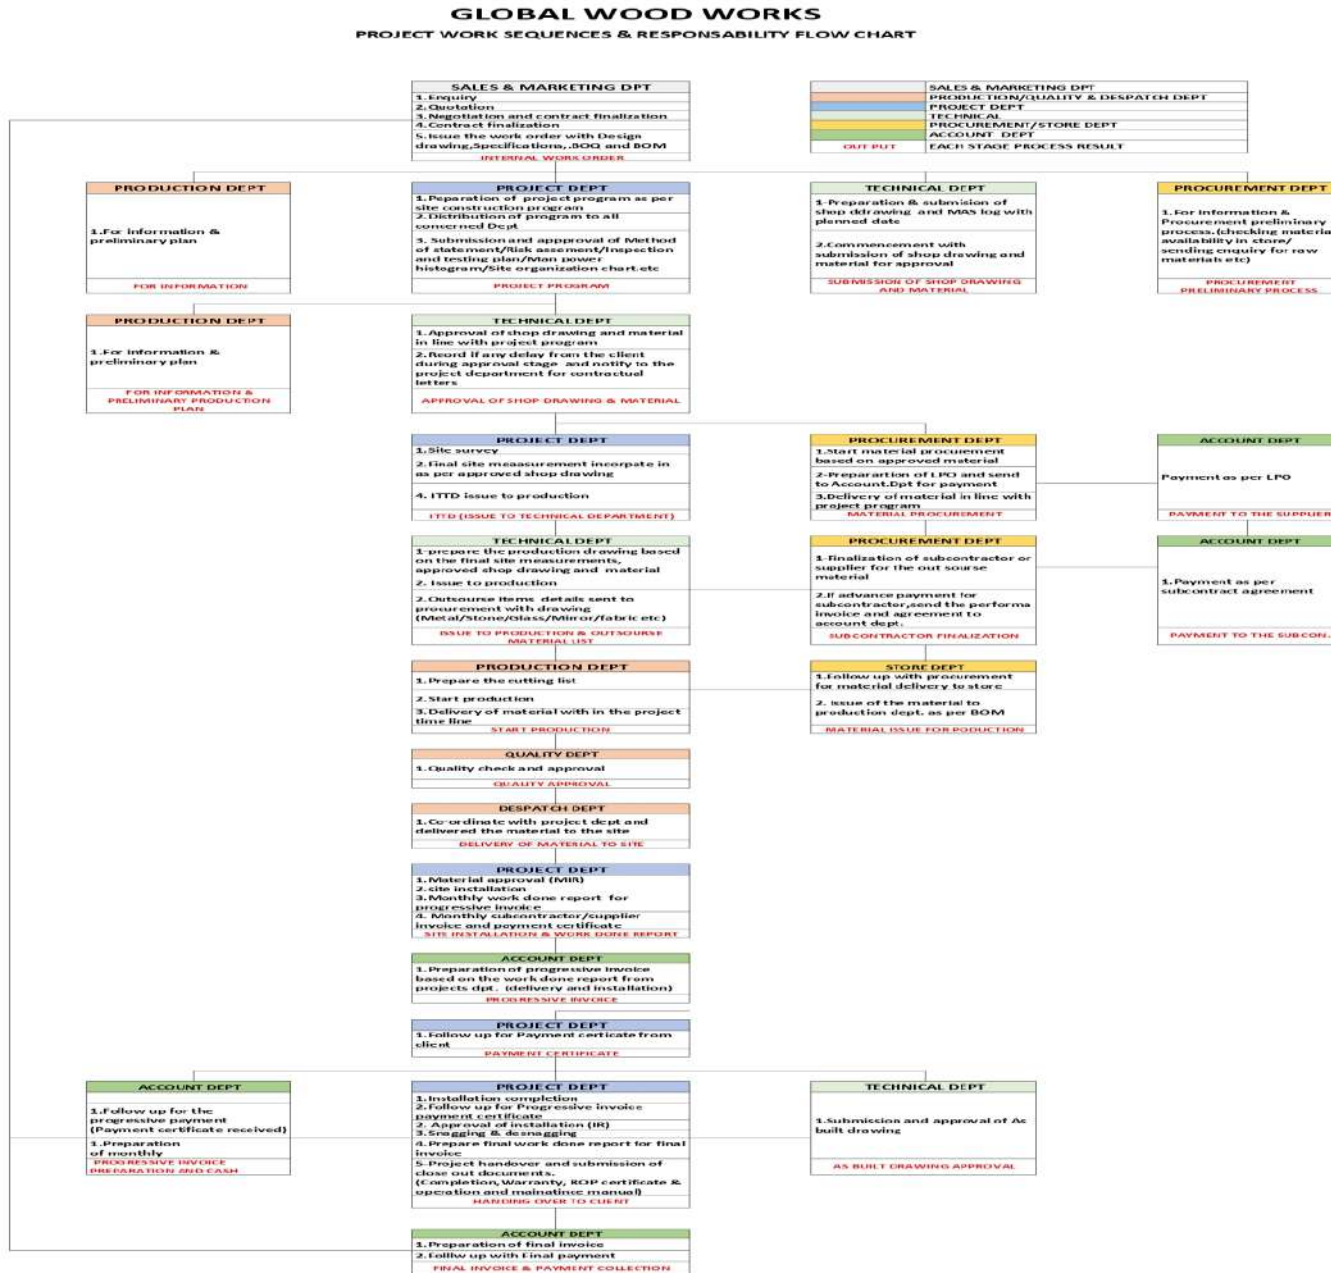

- **Building with Integrity, Crafting with Care:**

To deliver exceptional joinery and wooden works that exceed expectations, focusing on precision, sustainability, and customer satisfaction in every project we undertake

GLOBAL WOODWORKS

FACTORY IN SOHAR

CARVING & CNC SECTION

CNC is essential in the modern world of joinery, and we have invested heavily in this area. Apart from operating 2 beam saws computer, we also have 8 other state-of-the-art CNC machines making all kinds of items ranging from 3d and 2d carving, furniture shaping, intricate Mashrabea, marquetry and curved works.

We operate the unique wood turning lathe CNC, which can turn items up to 450mm Diameter and is in turn capable of carving all in one machine.

We are fully equipped with Marquetry Designers and in house equipment and Marquetry Artisans. Our marquetry work can be found in hotel, high value homes and in Ministry Buildings

| SUBMITTED BY : | International Construction Development Company | |
| SUBMITTAL REF. NO. : | PSO391-DSU-PQ-0127_0 | |
| RECEIVED ON : | 23 Sep 2021 | |
| PROJECT NAME : | MWP - Five Star Beach Hotel and Branded Residences at Al Mouj | |
| SUBJECT : | Pre-qualification (PQ) - Supply & Installation of Wooden Doors-Global Wood Work LLC | |
| Item no. | COMMENTS | |
| 1 | No objection for proposed Sub-Contractor M/S Global Wood Work LLC to supply & installation work of wooden doors subject to complying project specification & local authority requirements. Note: the proposed PQD is only for Wooden doors (FR and N-FR), if any other works with same sub contractor is expected in future - relevant works PQD to be submitted separately. | |
| 2 | Further to review and considering the "Type, Scale, Complexity and Fast track Conditions" of the project, based on the proposed Wooden Works - Global Wood Works to demonstrate the required information of production capabilities, installation crew and interfacing with other elements and post completion support requirements. In addition to above, the Global Works currently has 18 on going projects- Considering the Concern Contractor to clarify/ demonstrate the production time line and organization chart of project specific planned deployment of manpower to achieve the project targets, include the planned schedule with production and installation details for this project. | |
| 3 | Proposed sub-contractor to provide a written/validated confirmation statement that i.e. "We Global Wood Works as specialist Sub-Contractor have received and reviewed all the technical details/drawings/specifications from the main contractor as per IFC documents / other correspondences without any exclusions or qualifications and they catered for all the necessary requirements in line with Authorities having Jurisdiction in order to cater for all the necessary criteria to ensure a complete working system for the project is achieved during the time of completion and hand over. And also, we will fully comply with project time line for preparation of shop drawings, procurement of all respective Materials along with physical works at site and further confirm required manpower with adequate skilled personnel are available to execute the scope of work within project duration". Further, main Contractor to arrange this undertaking from the proposed subcontractor and submit with the revised PQ, as required for final approval. | |
| 4 | Please provide draft warranty including the proposed extended warranty, if any. Apart from the extended warranty offered by the Specialist, Contractor with his suppliers should comply for any other specific warranties required as per Contract related to Finishes etc. without deviation. All warranties, DLP period etc. shall commence from the date of actual project completion, any other required maintenance earlier than that or during DLP shall be carried by the Contractor via the Specialist sub-contractor at no additional cost to the Client. Also, Warranty must cover inclusive of parts, routine monthly service etc. as required for the appropriate functioning of works. | |
| 5 | Contractor to arrange the factory visit to demonstrate the production capabilities for Engineer / Client reference | |
| Engineers comment's provided via drawing or other documents to the Contractor, should be replied pointwise for closure/confirmation or clarification as required in addition to the revised drawing or documents. This will need to be compiled strictly with all responses in the project. This is to ensure abortive works are reduced/avoided and appropriate communication and tracking of issues can be implemented. | | |
| NOTE: Approval or Comments to the submittals does not relieve the Contractor from their responsibilities under the standard conditions of contract. The assessment is to review the general conformance and compliance of the submittal to the contract and specification requirements. | | |

Project: ROP New General Hospital - BP2 Package I

Subject: Prequalification Document for Wooden Doors and Frames Works of Global Wood Works Attachment to Technical Submittal 290-BP2-1/TS-1136 dated May 9, 2017

ACTION B

M/s Global Wood Works is approved as Subcontractor for wood doors and frames (doors' type as listed below).

A meeting was held with the proposed Subcontractor M/s Global Wood Works on May 24, 2017 attended by the Contractor and the Engineer. The following were discussed and agreed:

Doors for Hospital & Forensic Buildings:

- Global's scope: Shall be doors type C, J & K for Hospital building and doors type B, C & H for Forensic Building.
- Global Wood Works proposed to replace block board with solid core (Non-combustible). The proposal is acceptable without additional cost.
- Global Wood shall provide 10mm thick lipping in lieu of 6mm without additional cost.
- The frames shall be solid wood without additional cost.
- The hardware templates (after submission and approval) shall be provided to Global Wood Works by Galfar.
- All drawings/general notes related to wood doors and frames shall be signed and stamped by the Subcontractor. The submitted compliance statement for wood doors and frames has to be revised based on the agreements reached in the meeting.
- Submittal shall include all specified materials. Alternative materials shall be provided with technical comparison.
- Galfar shall provide Global Wood Works the stamped drawings by Civil Defense. Submit shop drawings of fire doors for approval.
- Intumescent kit shall be provided for all fire rated doors and frames without additional cost.

SECTION 1 - INTRODUCTION

1.0- Introduction

This Safety Management System has been written to formalize the methods being used to control safety during the execution of the construction.

The GLOBAL WOOD WORK, LLC recognizes the importance of **PLANNING HEALTH AND SAFETY** into the Project at the earliest possible time if injuries and ill health arising from the construction activities are to be avoided. To this end, this **Management** has been prepared to describe how we intend to manage, control and co-ordinate the works in order to protect the health, safety and welfare of all personnel engaged on the project and any others that may be affected by the operations.

All management and supervisory personnel will therefore be provided with a controlled copy of the plan, as well as those Sub-contractors on site.

The GLOBAL WOOD WORK, LLC will actively seek the support of all personnel engaged on the project to look after the health and safety of themselves and their colleagues by working within the spirit and requirements of this plan.

Any person found to be disregarding the requirements of the plan would be subject to disciplinary action, which may result in their dismissal from the project.

This Project Safety Plan identifies the safety Practices that GLOBAL WOOD WORK, LLC will implement in order to eliminate or control the respective hazards and ensure that adequate standards of health and safety are maintained throughout the project.

SECTION 2.0 – HSE POLICY

Provide adequate information, guidance training and supervision and all items to employees so that they are aware of fire safety, health, precautions and hazards in order to enable the team to carry out their task safely and effectively.

Ensure safe and healthy methods, procedures in all the work areas, premises, equipment and machinery and consequently minimize risk of personal injury, accident and damage to property.

Establish and maintain a procedure for reporting all incidents and major occurrences and carrying out investigations.

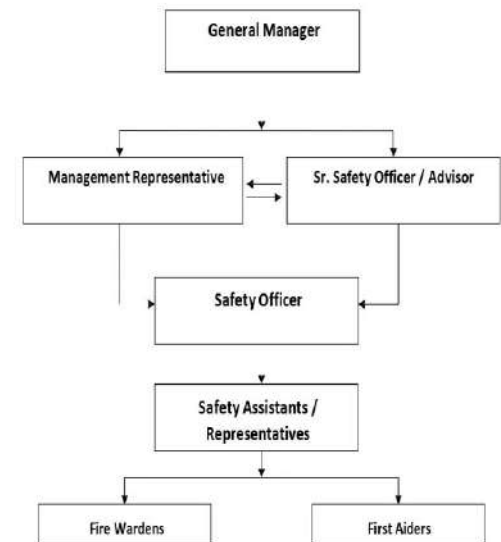

Ensure that the company's activities do not endanger the safety of visitors to the site by making them aware of their obligations pertaining to safety.

Give all necessary protective clothing and safety equipment that is required under the laws of Sultanate of Oman.

HEALTH+ SAFETY = WEALTH is our policy.

Is/gww

SECTION 3.0 - ORGANIZATION CHART

SECTION 4.0 – HSE PROGRAMME

4.1. WALKING AROUND ON SITE:

1. Pedestrian must walk in allocated pedestrian access. Do not walk in the centre of the road.
2. Warning tapes and barriers are set up for a reason do not remove walk around.
3. Observe all safety signs on the site.
4. Key facilities on site such as First Aid Room, Site Toilets, Messing Site Stores, Time offices are to be identified.
5. Access and egress on company buses to be in orderly fashion.
6. Do not walk by any unattended hole, report this immediately to a Supervisor or Safety advisor.
7. If we have to leave our places of work for whatever reason inform our supervisor.
8. Report any unsafe act we will be disciplined by our Supervisor, if no action is taken this you can take action on us.
9. Do not interfere with any Site Electrics.
10. Eat food in designated areas only, no food allowed on site.
11. No smoking allowed on site.
12. Do not interfere with Fire Extinguishers.
13. Turn off water taps.

Is/gww

HSE & QUALITY POLICY

14. Persons Suspected to be under the influence of alcohol and/or drugs will not be permitted to enter the work site.
15. There shall be no discrimination, humiliation and/or unfair treatment to anyone in the work site.
16. Personal Protective Equipment to be worn at all times within the work site.

4.2. PLANT AND MACHINERY (IF APPLICABLE)

1. Beware of reversing Vehicles
2. Do not operate any Plant or Machinery with out approval or training.
3. Do not walk below Cranes while lifting.
4. Riding on plant is not allowed.
5. Do not leave engines running on Plant unattended.
6. Do not remove Guards from either portable or static machinery.
7. Do not remove Plug from Electric leads, or wire directly into Transformers without a plug.

4.3. WORKING AT HEIGHTS:

1. SCAFFOLDS

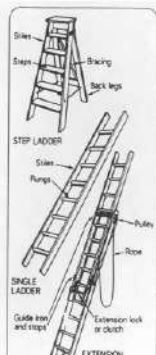

- f All scaffolds will be of good construction, strong and sound materials, free from defects and properly maintained.
- f Standing scaffolds will be erected on firm, stable ground and be adequately braced, tied in or provided with out riggers.
- f Erection of scaffolding will only be done by a Competent Person.
- f No scaffolding will be overloaded and where necessary to prevent danger from falling objects will be fitted with brick-guards or protective screens or fans.
- f No person, tools or equipment is to be left on platform whilst it is being moved
- f All scaffoldings will be inspected before first use (GWW/HSE/10), thereafter, and weekly by a competent person, the results of such inspection recorded in an appropriate form. Necessary corrective measures shall be the responsibility of the Project Manager.

2. LADDERS

Where work cannot be done on the ground or from the part of a building or permanent structure, ladders are to be placed and properly maintained.

You will ensure that the following is applied to the use of all ladders, whether timber or metal:

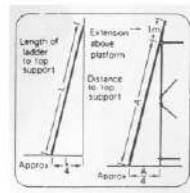

- Choose the correct type for the job
- Inspect equipment for defects (loose rungs, broken shoes, etc) and report defects to your Supervisor.
- Place equipment in safe working position and on a firm footing.

Metal ladders, e.g. aluminum and wooden ladders with wire reinforcement must not be used where there is any chance of them coming into contact with live electrical parts they are not suitable for electrical work.

IS:GWW

- Select a ladder of sufficient length so that it extends at least 1 meter above the step on/off point can be used a slope no greater than 4:1 ratio (See diagram)

Select a ladder of sufficient length so that:

- It can be used at a slope no greater than 4 in 1.
- It extends at least 1 meter above the platform to be reached; or
- You can stand at least 1 meter from the top of the ladder when in the working position

- Metal ladders are not to be used for live electrical work.
- Ladders are to be securely fastened or anchored at the top to prevent slipping.
- If the ladder is to be in use for some time, the top should be lashed in position.

4.4. PERSONAL PROTECTIVE EQUIPMENT (PPE):

Global Wood Work, LLC and its Subcontractors will establish suitable procedures to record the issue of each item of P.P.E. to an individual (GWW/HSE/18). Every person, including visitors, issued with an item of P.P.E.

All personnel will be informed at the time of issue of the need to maintain the equipment properly and hygienically and to immediately report any defect or damage of the P.P.E. They will be provided with instruction on the proper use and maintenance of the equipment where appropriate.

Depending on the work activity of each subcontractor and their respective personnel, the types of P.P.E that will require to be issued on the project will include but not limited to:

- f **Safety Helmet:** with the exception of office compounds, wearing of Safety Helmets in the whole site is mandatory. Safety hats or helmets are rigid headgear made of various materials and designed to protect the head from impact, flying particles, electric shock, or any combination of the three. Each helmet has two parts, a shell and a suspension cradle. Any modification of the safety helmet, especially punching holes in shell, is prohibited.

IS:GWW

f Eye and Face Protection

Protection of the eyes and face from physical or chemical agents are of prime importance in an industrial environment. And also, due to intensive sun exposure, uncontrolled dust and high humidity, locally used cotton Scarf should be issued to open area workers during construction period.

To select the type of protection will depend on the properties of possibly imposed hazard, but it should be borne in mind that all eye protection and most face protection devices must be considered as optical instruments. They must be selected, fitted, and used with regard to both the type of hazard and the optical condition of the user.

f **Hearing Protection:** Suitable hearing protection will provide to all personnel exposed to noise levels at or above 85 DB (A) 8HR LEQ. The type of protection provided may ear muffs or earplugs, but in either case will provide sufficient attention to remove the risk of damage to the hearing of the persons using the equipment.

f **Respiratory Protection:** A range of suitable respiratory equipment will be provided if required manufactured to meet internationally standards to protect against dust, fumes and vapors.

f **Fall Arrest Equipment:** Full body safety harness with suitable lanyards will be provided where required. Training must be provided to the user, particularly to choosing the anchor points when Fall Arrest Equipment is used, its use, examination and maintenance and replacement will be in accordance with the manufacturer's recommendations.

f **Safety Boots:** All personnel in construction work areas will wear safety footwear.

f **Gloves:** All personnel will be provided with suitable protective gloves to prevent injury from handling sharp, abrasive, hot, toxic or other hazardous materials or substances.

f **Protective Coveralls:** All personnel will wear coveralls.

HANDS & FEET

IS:GWW

HSE & QUALITY POLICY

Every person issued with P.P.E is responsible for using and maintaining the equipment and inspecting it regularly to ensure it remains fit for its intended purpose. The failure of any individual to use P.P.E. provided would be subject to disciplinary action, which may result in the offender's dismissal from site.

4.5. WARNING SIGNS:

- Prohibition Signs** – These signs indicate "YOU MUST NOT...", "DO NOT DO". Sign Colour = RED 
- Mandatory Signs** – These signs indicate "YOU MUST DO...", Carry out the action given by the Sign. Sign Colour = BLUE 
- Warning Signs** – These signs indicate "CAUTION", "RISK OF DANGER", "HAZARD AHEAD". Sign Colour = YELLOW 
- Safe Condition** – These signs indicate "THE SAFE WAY", "WHERE TO GO IN AN EMERGENCY". Sign Colour = GREEN 
- Fire Equipment** – These signs indicate "FIRE EQUIPMENT". Sign Colour = RED 

4.6. WASTE MANAGEMENT:

Global Wood Work, LLC recognizes the importance of a good Waste Management System to be implemented on worksites to avoid unnecessary accumulation of waste material thus creating an ideal workplace for all activities to be carried out smoothly.

Global Wood Work, LLC and its subcontractors will establish and maintain procedures designed to control risks arising from handling, storage, and disposal of waste, excess materials and rubbish. The following steps shall be applied:

- f The procedure will require the Safety Officer to request the supply of relevant waste material Information (MSDS). Such information shall be recorded by the Safety Officer for monitoring purpose (GWW/HSE/16).
- f The Project Safety Officer and Stores Controller should, as far as possible, ascertain that waste, excess materials and rubbish are properly accounted for before disposal.
- f The Safety Officer must then ensure that personnel handling the waste, excess materials and rubbish are provided with health and safety instructions (Toolbox Talk), provided with the appropriate P.P.E and any training that may be appropriate.
- f The Project Safety Officer will assist where necessary and monitor that the procedures of MSDS are implemented.
- f Storage and disposal of waste, excess materials and rubbish are as per MSDS data procedures and in compliance with local municipality regulations.
- f A Cleaning Schedule (GWW/HSE/24) is maintained and recorded for purpose of monitoring the accumulation and disposal of waste, excess materials and rubbish within the levels/areas where Global Wood Work has activity.
- f Waste boxes are to be provided on each Level/Area where Global Wood Work has activity.
- f Waste boxes are cleared on a daily basis or twice in a day in the event of quick accumulation of waste, excess material and rubbish.
- f Waste boxes are cleared on a daily basis or twice in a day in the event of quick accumulation of waste material.

An unsafe work act or violation that had the potential to lead to property damage or personal injury.

First aid injury: An incident requiring first aid treatment at site. **Lost time injury:** An incident where more than one full shift is lost. **Property Damage:** An incident resulting in damage to property.

Near Miss: An accident, which did not result in an injury, damage or loss but which has the potential to cause the same.

All accidents are to be immediately reported to the Safety Officer in the cases described below and will be followed by a written report:

- f All fatal injuries
- f All injuries requiring first aid treatment
- f Incidents (Near miss or dangerous situation)
- f All damages, to the client's or Contractor's properties
- f All fires
- f All releases or spills of hazardous materials

A written incident/accident report (GWW/HSE/14) shall describe in detail the circumstance, and include the results of the accident investigation and analysis. This report describes the accident classification, cause, time, date, location, etc. Written incident reports shall be submitted to Project Manager by the HSE department. Investigation shall be carried out by the HSE Manager / safety officer / site Engineer and all the details shall be recorded in the "Accident/Incident Investigation Form" (GWW/HSE/23) and submit to Project manager for review & record.

Safety officer shall recommend suitable preventive actions to be applied to avoid recurrence of similar accidents.

All the relevant records shall be maintained by the HSE department; in addition a daily first aid record must be kept on all employees requiring first aid treatment.

Action to be taken following a Fatal/Major accident:

- f Call the local authorities and ambulance immediately Fire (9999) Police (9999)
- f Notify Project Manager
- The HSE manager/Safety officer shall be responsible for carrying out the accident investigation and complete the necessary record.

4.8. KEY PERSONNEL:

| | |
|-----------------------------------|------------------|
| Safety Officer | (+968 2670 1604) |
| Security & Facilities Coordinator | (+968 2670 1604) |

SECTION 5.0 – IMPLEMENTATION

This part of the **Safety Plan** is used to identify foreseeable hazards of the project and to describe the arrangements for eliminating or controlling the associated risks, thereby satisfying both statutory and contractual obligations and promoting acceptable standards of health and safety throughout the project.

All sub-contractors employed on the project will conform to the arrangements described in this section and co-operate its accident prevention programme. Global Wood Work recognize that its subcontractors will execute a number of operations or activities for which detailed procedures will be required to ensure the health and safety of those involved. Where considered appropriate by the contractor, these detailed procedures will be conducted within the individual safety plans prepared by the respective subcontractors.

5.1- Employee Compliance and Discipline

All employees are required to follow site safety policies and operating procedures. When required, employees will be provided with additional training and information, or re-training to maintain their knowledge.

The disciplinary action policy shall display in a distinguished place on site includes the following penalties for all workers who violate the safety and health regulation;

Violation: Not obeying with the work or safety instructions

SECTION 5.0 – IMPLEMENTATION

This part of the **Safety Plan** is used to identify foreseeable hazards of the project and to describe the arrangements for eliminating or controlling the associated risks, thereby satisfying both statutory and contractual obligations and promoting acceptable standards of health and safety throughout the project.

All sub-contractors employed on the project will conform to the arrangements described in this section and co-operate its accident prevention programme. Global Wood Work recognize that its subcontractors will execute a number of operations or activities for which detailed procedures will be required to ensure the health and safety of those involved. Where considered appropriate by the contractor, these detailed procedures will be conducted within the individual safety plans prepared by the respective subcontractors.

5.1- Employee Compliance and Discipline

All employees are required to follow site safety policies and operating procedures. When required, employees will be provided with additional training and information, or re-training to maintain their knowledge.

The disciplinary action policy shall display in a distinguished place on site includes the following penalties for all workers who violate the safety and health regulation;

Violation: Not obeying with the work or safety instructions

- Verbal warning:** As the first step in correcting unacceptable behavior or minor infraction, a verbal warning shall be issued to the employee.
- Written Warning:** If unacceptable performance continues, or the severity of the infractions warrants, the next step will be a written warning (GWW/HSE/04). The written warning will clearly state the safety policy that was violated and steps the employee must take to correct it.
- Suspension/Termination:** If unacceptable practice continues, or the severity of the infraction warrants, the employee will be given time off without pay.
- Immediate Termination:** Any employee who commits a serious safety violation affected his life or others shall be subject to immediate termination without prior notice in lieu of any prior verbal and/or written warning.

On the other hand an incentive scheme will implement at site, whereby all site employees are monitored on a weekly basis, and are subject to a reward for their good safety performance.

5.2- Foreseeable Hazards of the Project

The foreseeable hazardous operations associated with the project works can be summarized as follows:

- f Working at heights (scaffolds and ladders)
- f Handling, use storage and transportation of materials and substances.
- f Exposure to environment or health risk associated with dust, fumes, vapours, etc.
- f Use of hand-held power tools.

The foregoing list identifies the major areas of concern for which necessary to control, or guard against, be implementing safe systems of work providing safe places of work, adequate monitoring and control arrangements, and the provision and use of suitable protective clothing and equipment.

The following paragraphs describe the arrangements for ensuring that the risks arising from those hazardous activities are eliminated or adequately controlled.

5.3- Safety Inspections

The Safety Officer/Officers Shall carry out continual health and safety inspections with comprehensive checklist/ inspection report as they go about their day to day business and take immediate steps to remedy the defects or unsafe practices they observed. Inspection reports will be forwarded to the Project/Construction Manager. A register will be maintained for inspections, but not limited to:

- f First Aid Box Inspection (GWW/HSE/07)

COMPANY REGISTRATION & CHAMBER OF COMMERCE

شهادة السجل التجاري Commercial Registration Certificate

CR Number 1111583 1111583 رقم السجل التجاري

Note: **ملاحظات**
This certificate is digitally signed. **هذه الشهادة موقعة رقمياً.**

This certificate has been signed and certified using a Digital Signature Certificate as specified under The Electronic Transactions Law of the Sultanate of Oman issued by His Majesty's Royal Decree (60/2008).

To check the validity and authenticity of the digitally signed documents and certificates, please check the online service of National Digital Certification Center at (www.oman.gov.om).

The information in this commercial registration is registered based on the Commercial Registration Law No. (3/1974). The commercial registration owner is obligated to obtain the approval of the competent authorities before the commencement of any economic activity when the activity is restricted by prior consent, including the introduction and operation of foreign labor force.

This certificate proves that this commercial registration has a membership of Oman Chamber of Commerce and Industry for only one year from registration date.

The Commercial Registration and the CR certificate are not considered as an approval or a warranty for a license of bringing in labour.

The Commercial Registration does not grant an approval or a guarantee for obtaining an investor's residence permit in the Sultanate of Oman.

لا تفرع وأحكام هذه الشهادة باستناد خاصية الشهادة الموقعة رقمياً وفقاً لما هو وارد في قانون المعاملات الإلكترونية لسنة ٢٠٠٨م وأصدر بموجب المرسوم السلطاني رقم (٢٠٠٨/٦٠).

يرجى التحقق من صحتها ومصادقة التوقيعات والشهادات المصدرة رقمياً عن طريق الخدمات الإلكترونية المقدمة من المركز الوطني للمصادقة الإلكتروني وذلك عبر الرابط (www.oman.gov.om).

لا تفرع المعلومات بهذا السجل بموجب قانون السجل التجاري رقم (٣/١٩٧٤) ويستلزم على ماله الحصول على موافقة الجهات المختصة قبل ممارسة أي نشاط اقتصادي متى كان النشاط مقيداً بموافقة مسبقة بما في ذلك استقدام وتدخل القوى العاملة الأجنبي.

شهادة السجل التجاري تثبت أن هذا السجل منسوب لجهة تجارة وصناعة عمان لمدة عام واحد من تاريخ التسجيل.

لا يعتبر تسجيل السجل التجاري وشهادة السجل التجاري بصفة أو ضمان للحصول على ترخيص للاستقدام.

لا يعتبر هذا السجل التجاري بصفة أو ضمان للحصول على ترخيص الإقامة للمستثمر بالسفارة.

The Commercial Registration is not considered as an approval or a warranty for a license of bringing in labour.
